DETAILED PROJECT REPORT

POPULAR HOSPITAL, MIRZAPUR

AN ADVANCED MULTI-SUPER SPECIALTY, VARANASI

DETAILED PROJECT REPORT

Prepared for: POPULAR HOSPITAL, MIRZAPUR

Prepared by: Shubham Mishra

Date: March 2026

Project Cost: 150 Crore

Investment Sought: (Approx. 75%)

Promoter Contribution: (Approx. 25%)

Confidentiality Notice

This report has been prepared exclusively for prospective investors evaluating participation in the proposed **Popular Hospital – An Advanced Multi-Super Specialty Hospital, Mirzapur.**

The information herein is based on realistic assumptions and validated data from the promoter's existing operations.

Figures are presented in Indian Rupees, rounded to the nearest lakh or crore for better clarity.

Table of Contents

- 1. Executive Summary: The Unbeatable Investment Thesis**
- 2. Introduction: The MIRZAPUR - The Legacy**
- 3. The Project: Vision, Mission & Objectives**
- 4. Geographical & Catchment Area Analysis**
- 5. Current Market Sizing & Revenue Potential Summary**
- 6. Domain Specialization & Clinical Offerings**
- 7. Unique Selling Propositions**
- 8. Infrastructure & Technological Capabilities**

1 Executive Summary

Popular Hospital, Mirzapur is a well-established and trusted healthcare brand with a 32+ year legacy of clinical excellence and patient care across Eastern Uttar Pradesh. The group is now scaling its impact through a 100-bedded Advanced Multi-Super Specialty Hospital, built in 2019 and already operational, delivering comprehensive healthcare services to a large and underserved population.

The institution functions under the visionary leadership of Dr. A.K. Kaushik, a highly respected surgeon and healthcare entrepreneur with over 30 years of experience in building and managing successful medical facilities.

The Opportunity:

Eastern Uttar Pradesh represents a high-demand, low-supply healthcare market, where patients still travel to metro cities for advanced treatment. Mirzapur, due to its strategic location and connectivity to Varanasi, Bhadohi, Sonbhadra, and surrounding districts, is emerging as a high potential healthcare hub. This project is positioned to:

- Bridge the gap in tertiary and super-specialty care
- Capture strong regional patient inflow
- Reduce medical migration to Tier-1 cities
- Develop a medical value travel destination

Infrastructure & Clinical Strength:

- 100-bedded multi-super specialty facility
- Fully constructed & operational since 2019
- Modular operation theatres
- Advanced critical care units
- Integrated diagnostics & imaging
- 24x7 emergency & trauma care

Key Growth Drivers:

- Strong brand trust built over three decades
- Established patient base and referral network
- Presence in a high-density, underserved geography
- Rising demand for cardiac, gastro, ortho, mother & child, and critical care services
- Increasing penetration of insurance & government health schemes

Investment Rationale:

- Brownfield advantage → lower risk, faster scalability
- Immediate revenue potential (running hospital)
- High bed occupancy growth capability
- Scope for super-specialty expansion
- Strong EBITDA potential due to regional dominance model

Vision:

To develop Popular Hospital, Mirzapur into a Center of Excellence for advanced and affordable healthcare in Eastern Uttar Pradesh, delivering world-class treatment while generating sustainable and scalable returns for stakeholders.

1.1 Key Highlights

Parameter	Details*	Strategic Impact
Project Cost	150 crores	Includes land, construction, and equipment
Investment Sought		For a 75% equity stake
Promoter Contribution		For a 25% equity stake Represents confidence and value in brand equity
Capacity	100 beds (expandable up to 250)	Designed for phased scalability
Expected Revenue (from 5th Year)		Based on 75% occupancy and service diversification
Net Profit Before Tax (from 5th Year)		Sustainable margins at operational maturity
Target IRR	18–20% plus	Based on conservative growth assumptions

1.2 Investment Proposition

- **Strategic Location:** Mirzapur – high patient inflow, strong connectivity, **underserved** super specialty segment.
- **Focused Specialties:** Oncology, Cardiology, Neurosciences, Orthopedics, and Advanced Surgery. In addition, STEM Cell Revesting and Regenerative Medicine.
- **Operational Efficiency:** Shared resources and management across Popular Group's network.
- **Socio-Economic Impact:** Bridges the gap in tertiary care for a catchment exceeding 30-40 million people.

This investment offers a dual return: substantial financial profits and the profound impact of addressing critical healthcare gaps in one of India's most populous and demanding regions.

2 Introduction: The Mirzapur Legacy:

Mirzapur, one of the historically significant and rapidly developing districts of Eastern Uttar Pradesh, is known for its rich cultural heritage, strategic location, and growing economic importance. The city plays a vital role in connecting the healthcare, trade, and population networks of the Vindhya region.

Situated on the banks of the sacred Ganga River, Mirzapur serves as a crucial link between Eastern Uttar Pradesh and the adjoining regions of Madhya Pradesh and Bihar, making it a natural service center for a large catchment population. Geographically, Mirzapur covers an area of approximately 4,522 km² and is surrounded by key districts including Varanasi, Bhadohi, Sonbhadra, Chandauli, and Prayagraj, which significantly enhances its accessibility and regional influence.

The district is located at latitude 25.15° N and longitude 82.58° E, with a diverse landscape of plains and the Vindhyan plateau, supporting both urban expansion and rural outreach.

2.1 Contemporary Relevance

Mirzapur has rapidly transitioned from a historically significant district into a high-potential growth center for healthcare delivery in Eastern Uttar Pradesh. With improving connectivity, expanding urbanization, and rising health awareness, the district is witnessing a steady increase in demand for quality secondary and tertiary medical services.

The region caters to a large catchment population from Mirzapur, Sonbhadra, Bhadohi, Chandauli, and adjoining rural belts, where access to advanced healthcare facilities remains limited. As a result, a substantial number of patients continue to travel to Varanasi, Prayagraj, and metro cities for specialized treatment — indicating a strong unmet local demand.

2.2 Geography and setting

Situated on the crescent-shaped left bank where the Ganga uniquely turns north, Varanasi lies in the fertile Indo-Gangetic plains between the Varuna and Assi streams that give the city its name, with humid subtropical climate and roughly 112 km² urban agglomeration footprint. Regional linkages through Expressways & National Highways include NH-2 (GT Road), NH-29, NH-56, Special Economic Zones (SEZs), Inter State Bus Terminals (ISBTs), Multi Model Inland Water Terminals (National Water Ways-on Ganges River), robust rail connectivity via Varanasi and Pt. Deen Dayal Upadhyaya Junction and Airport Terminal, positioning the city as an accessible regional service hub.

2.3 Population snapshot

Urban agglomeration population estimates for 2025 range around 2.08 million, with the city population near 1.75 million based on extrapolations from 2011 Census, noting the 2021 Census was postponed: alternative series place 2025 UA near 1.83 million, reflecting methodology variance.

Varanasi district population is projected around 4.34 million in 2024–2025 from district-level series, having risen from 3.68 million in 2011, thereby highlighting significant peri-urban catchments feeding the city economy and services.

Its urban literacy rate is around 79%, and the metro population reaches 2 million.

2.4 Healthcare Market catchments

Primary catchment (0–60 km, high dependence on Varanasi tertiary care): Varanasi district including VMC area, Ramnagar, and contiguous tehsils; neighboring tehsils across Chandauli (Mughalsarai/DH, Sakaldiha, Chakia), Jaunpur (Kerakat, Shahganj axis), Ghazipur (Saidpur corridor), and Mirzapur north-bank settlements—supported by FRU/DWH/CHC networks that refer complex cases to Varanasi. Secondary catchment (60–150 km, selective tertiary referral): Districts connected by NH/rail such as Jaunpur city, Bhadohi/Sant Ravidas Nagar (carpet cluster), Mirzapur city, Chandauli hinterland, Ballia and Mau corridors, parts of Azamgarh and Pratapgarh, and western Bihar edge districts via the Varanasi–Pt. Deen Dayal Upadhyaya Jn.–Ghazipur–Buxar axis, leveraging IMS-BHU super-specialties and trauma services.

2.5 Anchor healthcare institutions

Institute of Medical Sciences, Banaras Hindu University, with Sir Sunder Lal Hospital and super-specialty/ trauma blocks upgraded under PMSSY, functions as the apex referral center for eastern UP and adjoining Bihar. District Women Hospital and linked CHCs/FRUs in Varanasi and adjacent districts funnel obstetric, surgical, and critical cases to Varanasi's tertiary facilities, reinforcing the city's role as the regional medical apex.

Catchment Areas: Medical and Hospital Markets

Varanasi's healthcare network serves both urban and peri-urban populations in eastern Uttar Pradesh and neighboring Bihar.

**“Where timeless heritage meets modern healthcare --
Varanasi’s legacy of trust and service continues to evolve.”**

Summary

Varanasi thus blends ancient continuity with modern vitality—a sacred urban ecosystem that anchor a rapidly expanding healthcare and service economy.

This legacy of trust and service of Varanasi forms the foundation for the proposed flagship facility — a state-of-the-art center for advanced care, research, and medical education.

The Project: Vision, Mission & Objectives

1. Vision

To establish an integrated, technologically advanced, and patient-centric State of The Art and a world class Medical Infrastructure to provide General and Specialized Healthcare services that sets a new benchmark for compassionate, patient-centric clinical excellence in Eastern Uttar Pradesh, India

2. Mission

- A prominent Patient-Centric, Dignity-of-Care Model
- Deliver high-quality, affordable, and advanced medical care locally.
- Integrate global advanced technology with regional healthcare needs.
- Build a sustainable model combining medical excellence, training, and community health.
- To Become a Catalyst for a Healthier Purvanchal Ecosystem.
- To Democratize Advanced Medical Access through Operational and Technological Innovation.

3. Five-Year Strategic Objectives

- **Clinical:** Attain >95% patient satisfaction and regional referral dominance in Oncology, Cardiology, and Neurosciences etc.
- **Financial:** Achieve >30% EBITDA (**Earnings Before Interest, Taxes, Depreciation, and Amortization**) margins by 5th Year.
- **Financial:** Attain >20% ROCE (Return on Capital Employed) by 5th Year.
- **Financial/ Operational:** Secure empanelment with Ayushman Bharat and at least 20 major corporate houses.
- **Operational:** Launch and achieve 70% bed occupancy for two designated "Centers of Excellence" (ie. Cardio-Vascular Sciences and Oncology)
- **Operational:** Perform over 1,000 cardiac catheterizations and 500 oncology surgeries annually by 5th Year.
- **Operational:** Derive 30% of revenue from high-margin specialties (Oncology, Cardiology, Orthopedics).
- **Marketing:** Increase out-of-state patient volume to 25% of total in-patient admissions.
- **Marketing:** Establish formal referral partnerships with 50+ nursing homes and clinics across the region.

- **Social:** Conduct >100 health camps annually and screen >50,000 individuals for NCDs (Diabetes, Hypertension, Oral Cancers etc.) through mobile camps and community centers.
- **Academic & Innovation Leadership:** Launch a Department of Integrative Medicine with 5+ certified Ayurveda/ Yoga therapists.
- **Academic & Innovation Leadership:** Develop and implement 3 evidence-based clinical protocols (ie. for diabetes, arthritis, palliative care) that combine allopathic and traditional approaches.
- **Patient-Centricity:** Reduce average patient admission process time to under 20 minutes.
- **Patient-Centricity:** Implement a hospital-wide patient dignity and empathy training program with 100% staff compliance.

Geographical & Catchment Area Analysis

Varanasi: The Strategic Epicenter

- One of the world's oldest cities and India's spiritual capital, attracting pilgrims and tourists alike, leading to floating as well as settled population.
- Central location connecting Uttar Pradesh, Bihar, and Madhya Pradesh.
- Robust connectivity through NH2, railway junctions, and an international airport.
- Politically prioritized region due to its national importance.
- Rapid expansion on account of being the epicenter of the surrounding areas and Districts
- Huge settlement/ Habitat areas
- Huge Migrant population from the surrounding catchment areas

Catchment Areas of Population

Zone	Districts	Estimated Population	Key Opportunity
Primary (<70km)	Varanasi, Jaunpur, Ghazipur, Chandauli, Bhadohi	~1.5 crore	High outpatient and surgical potential
Secondary (70-200km)	Ballia, Deoria, Buxar, Kaimur, Prayagraj	~2.5-3 crore	Tertiary and super-speciality referrals

Pie chart of estimated population distribution: Primary vs Secondary healthcare zones

- Primary (≤ 70 km): ~1.50 Crores (High outpatient and surgical potential)
- Secondary (70–200 km): ~2.75 Crores (Tertiary and super-specialty referrals) Zone

The Face: Dr. A.K. Kaushik – A Healthcare ICON

Profile Summary

The single greatest asset and the primary de-risking factor of this investment is the promoter himself, **Dr. A.K. Kaushik**. He is a pioneer in General, Laparoscopic, Laser & Minimal Invasive Surgery in the region.

- **Qualifications:** MBBS, MS (General Surgery) from the prestigious Institute of Medical Sciences, Banaras Hindu University (IMS-BHU).
- **Specialization:** General, Laparoscopic, and Laser Surgery
- **Professional Affiliations:** AMASI, IAGES, Hernia Society of India.
- **Awards:** Multiple national recognitions, including Kashi Ratna, CNBC Healthcare Award, and Sunbeam Achiever Award.

Year	Award	Conferred By
2021	Exemplary Award	Hon'ble Governor of Maharashtra
2021	Bismillah Khan Kashi Ratna Award	Tourism Department, Govt. of UP
2017	Sunbeam Achiever Award	Sunbeam Group of Institutions
2016	India's Most Prominent Health Care Award	CNBC TV, UP State
2015	Kashi Ratna Award	Kashi Naresh Maharaj Legacy
2015	World Wide Achievers Award (Best Hospital in UP)	Ministry of AYUSH, Govt. of India
Honored by	Hon'ble Chief Minister of Uttar Pradesh, Shri Yogi Adityanath Ji	

Strategic Value

- **Brand Equity:** The “Dr. A.K. Kaushik” brand ensures immediate patient trust and strong referral linkages.
- **Clinical Leadership:** Over 30 years of experience managing large multi-specialty setups.
- **Operational Expertise:** Deep understanding of hospital operations, compliance, and workforce management.
- **Regulatory Advantage:** Long-standing credibility with government bodies ensures smooth project approvals.
- **High Worth:** Dr. A.K. Kaushik is a personality with High Worth – again a positive influence for a safe investment.
